

Testimonials from BBB courses – May 2007

- Excellent clinical application – very practical and useful. Great problem solving opportunities. New treatment application and demonstrations \
- Relevant to therapists from many settings, not only orthopaedic but also neuro, paed, geriatric and for me as a home therapist who sees it all, it was fantastic
- Excellent speaker- entertaining and knowledgeable and great sense of humour, very knowledgeable and well organized.
- Speaker was excellent at drawing from personal experience. Fun personal anecdotes and experiences with clients.
- I would attend anything that Karen Orlando was giving
- Perfect balance of theory and practical sessions
- Great course notes/manual. Great references. Great to know the research side as well.
- Very interactive and fun
- Lots of hands on experience and to be able to try out techniques as it's the best way to learn, great to have a variety of equipment available for trial
- Interacted well and easily with everyone, very accessible for questions
- Instructor kept workshop flowing- “day flew by”
